

PRESS RELEASE – for immediate release

B.R. Kreider & Son, Inc. Recognized by Keystone Chapter ABC for Safety

Keystone Chapter, Associated Builders & Contractors, Inc. (ABC), awarded B.R. Kreider & Son, Inc. with a Platinum Award for their commitment to safety.

ABC's Safety & Training Evaluation Process (STEP) program recognizes the efforts of ABC members that strive to achieve effective safety practices at their firms and provides contractors with a tool to objectively evaluate their safety programs, policies, procedures, and training. Awards are based on data submitted via application and are based on the North American Industry Classification System (NAICS) that replaced the Standard Industrial Classification System (SIC) and OSHA recordables.

Awards range from Bronze to Platinum, with Platinum being the highest level achievable. Among the many stringent requirements to qualify for Platinum status, a company has to: 1. Receive STEP Gold for two consecutive years; 2. Submit an OSHA summary 300 log summarizing OSHA recordables; 3. Submit a statement from their insurance company that supports the STEP self-evaluation score; 4. Have no fatalities or catastrophic incidents in the past three years, which results in OSHA citations. Platinum membership provides a special certificate of recognition, automatic application for the ABC National Safety Excellence Award and participation in National ABC promotional campaign. This is the third straight year that B.R. Kreider & Son, Inc. has received the Platinum award.

B.R. Kreider & Son, Inc., in business since 1936, is located in Manheim, PA. Services provided include: site management, commercial, agricultural and residential excavation, commercial and residential paving, specialized pavement texturing called StreetPrint™ for residential and commercial applications, crushing and recycling material at job sites, residential builder development, pond installation and repair, athletic fields, tennis courts and tracks. Also, state inspections, emissions inspections and repairs of automobiles is available through their Pin Oak Sales and Service division.
