Project Overview:

B.R. Kreider & Son, Inc. provided site management services for the total site construction for the 9.1 acre Medical Campus, which includes Medical Offices and an Ambulatory Center. Site excavation for 35,000 cy of cut for the 45,900 sf building footprint included a complex storm water management system with three large underground retention chambers, a massive 10,000sf modular retaining wall, and underground utilities. Parking for 420 spaces involved 8200 lf curbs and sidewalks with 20,400sy of asphalt paving.

Results:

BR Kreider & Son, Inc. was included as a member of the design-build team to expedite the design and construction schedule and offer value engineering. As the total site manager, we were able to efficiently co-ordinate and manage the site work to meet and surpass the client's schedule and budget.
